Dear Sir/Madam:

1. In response to Office Action of August 23, 2005 enclosed please find a listing of claims (all claims are currently amended) amended in accordance with the remarks of the Examiner and in view of US 6,311,239 to Matthews. The applicant believes the amended set of claims complies with the novelty requirement as set forth by 35 USC §102.
2. The applicant/assignee of the present application further believes that the set of claims as currently amended avoids the necessity of filing terminal disclaimer by the assignee of US 6,806,817, which is the same as the assignee of the current patent application, however, would be ready to submit such properly executed Terminal Disclaimer form PTO/SB/26, should this still be required.

Respectfully submitted,

Alex Deas
